Executive Summary – Timeline

Commonwealth Plan Of Adjustment ("CWPOA")

Puerto Rico is on Sound Fiscal Footing

On January 18, 2022, Judge Swain confirmed the Commonwealth Modified 8th Amended Joint Plan of Adjustment, which marks a historic step in exiting Title III and concluding the largest restructuring of municipal debt in U.S. history.

- Key Points**
- Reduction of total debt service, including COFINA, from ~\$90 billion to ~\$34 billion, a 62% decrease
 - Current Interest Maximum Annual Debt Service of \$1.15 billion³
 - Reduction in debt service as a percentage of Own Source Revenues ("OSR") of ~25 cents pre-restructuring to approximately 6.5 cents in FY2022 after effectiveness of CWPOA^{3, 4}
 - Includes Contingent Value Instruments ("CVI") based upon sharing of outperformance of 5.5% Sales and Use Tax Collections ("5.5% SUT") and General Fund Rum Tax Collections, both subject to annual and lifetime caps
 - Inclusion of CVI allows for a sharing of upside on island between Government and Creditors

Notes: (1) Estimated Pre-POA Commonwealth Claims includes original issue discount. Includes GO and GO Guaranteed, Clawback, MBA, ERS, and other estimated general unsecured claims. (2) Post POA Includes current interest and capital appreciation bonds. Excludes contingent value instrument and new debt at HTA. (3) Debt service includes \$1.15 billion in GO and COFINA debt service and excludes: (i) the 5.375% GO CABs and (ii) the 5.000% GO CABs. (4) Own Source Revenues as projected in January 2022 Certified Fiscal Plan divided by that years Maximum Annual Tax-Supported Debt Service.

Debt Service Reduction – Sustainable Debt Service Levels

The financial restructuring of the Commonwealth was a complex process, which was preceded by the successful debt restructurings for Government Development Bank and COFINA. The CWPOA ensures Puerto Rico has an affordable and predictable level of debt service.

Notes: (1) Excludes payments on account of GO Capital Appreciation Bonds. New debt issued as part of the 2021 PSA has a 25-year maximum maturity, after which the only Commonwealth fixed obligation is existing COFINA Senior Lien debt. For the avoidance of doubt, above charts do not include annual CVI payments.

CWPOA – Debt Sustainability

The Commonwealth exited Title III with a sustainable level of debt and debt service moving forward based on percentage of GDP, state personal income, debt per capita and own source revenues.

Net tax-supported debt, % of GDP

Net tax-supported debt per capita, \$/person

Net tax-supported debt to state personal income, %

Debt service, % of own-source revenues¹

Notes: (1) Own revenues includes all Commonwealth-collected revenues and excludes all federal transfers as included in the January 2022 CFP. (2) "Puerto Rico Post-POA" figures are based on assumptions included in the January 2022 Certified Fiscal and net tax-supported debt which includes new General Obligation debt of ~\$7.4 billion, excludes COFINA. Debt service based on \$1.15 billion MADS Cap, excludes CABs. Sources: January 2022 Certified Fiscal Plan, Exhibit 31, pg. 74.

CWPOA – Contingent Value Instrument

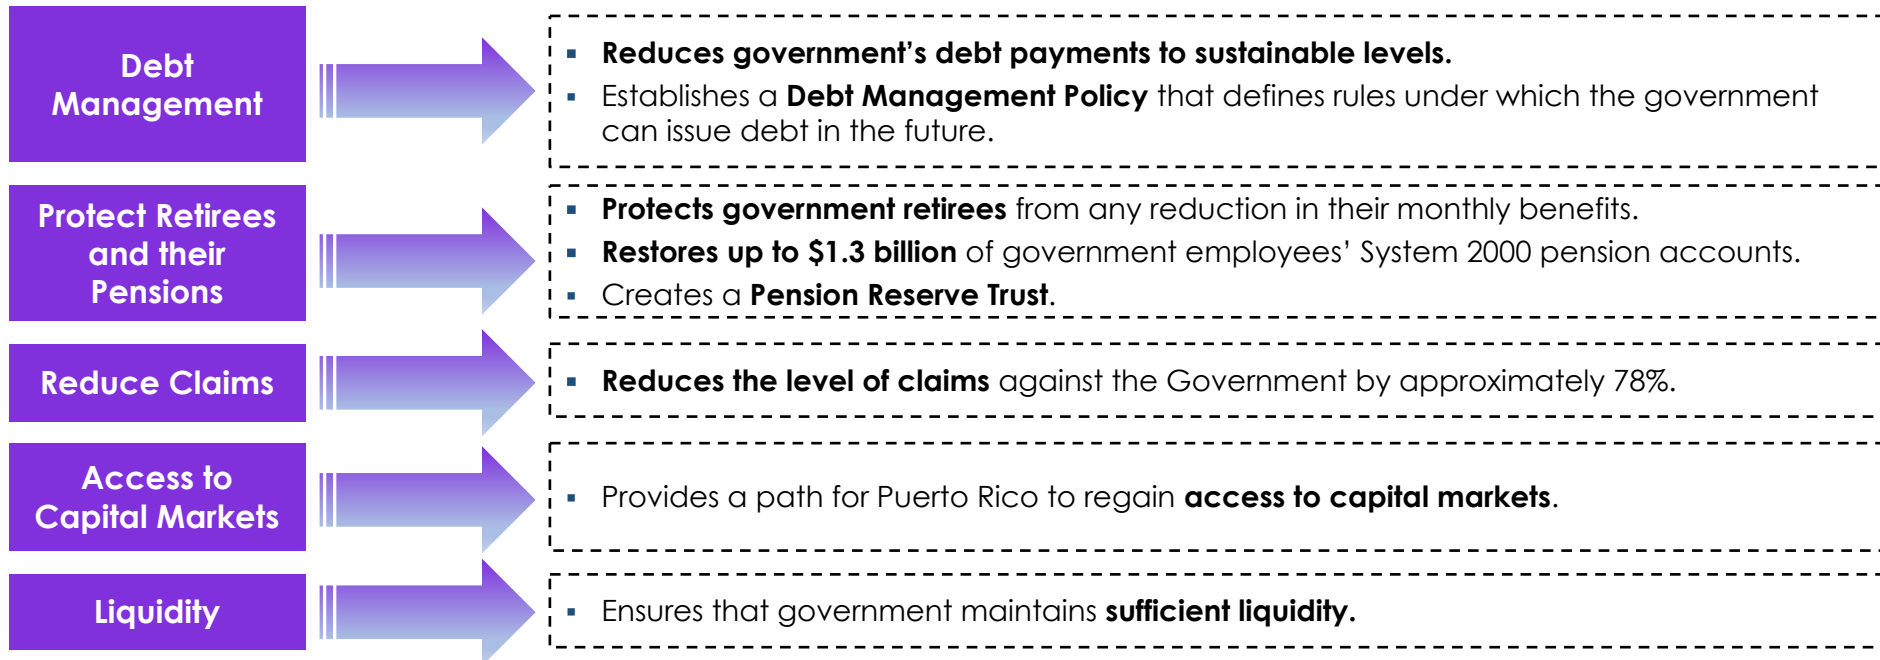

The Contingent Value Instrument (“CVI”) will only pay creditors in the case that actual collections outperform the metrics included in the respective Certified Fiscal Plans used for outperformance measurement. The key terms of the CVI include:

	Sales and Use Tax (“SUT”) Portion of the CVI	Rum Tax Portion of the Clawback CVI
Metric to Measure Outperformance	<ul style="list-style-type: none"> Outperformance of 5.5% SUT collections above the <u>May 2020 Commonwealth Certified Fiscal Plan Projections</u> 	<ul style="list-style-type: none"> Outperformance of general fund rum tax collections above the <u>April 2021 Commonwealth Certified Fiscal Plan Projections</u>

Annual cap of \$30 million.
Annual Cap	<ul style="list-style-type: none"> \$375 million 	<ul style="list-style-type: none"> \$30 million
Lifetime Cap	<ul style="list-style-type: none"> GO CVI: \$3.5 billion Clawback CVI: \$5.2 billion 	<ul style="list-style-type: none"> ~\$1.3 billion (together with PRIFA CVI payouts from the SUT Outperformance).

Term	<ul style="list-style-type: none"> GO CVI: 22 years Clawback CVI: 30 years 	<ul style="list-style-type: none"> 30 years

- We are committed to completing all pending debt restructurings as soon as practicable, including HTA, PREPA and PRIDCO, and achieving a sustainable capital structure for all public instrumentalities.
- We have led the way among states disbursing \$2.17 billion (or 97%) of Coronavirus Relief Funds and \$963 million in ARPA funds allocated to Puerto Rico.
- We are well under way in the disbursement of the almost \$50 billion of pending federal funds for recovery and reconstruction efforts.
- We are doubling our efforts on economic development, improving government services, exercising prudent financial management and reestablishing our relationship with the capital markets.

“Despite our challenges, the strength, courage and hopeful optimism of the people of Puerto Rico have been on full display for the world to see. In spite of difficult circumstances, the Island has become a shining example of resiliency and recovery.
